

Rainbow Within

A DIFFERENT APPROACH TO HELPING
THE HUMAN BODY GAIN PHYSICAL
AND SPIRITUAL HEALTH

The Past Became Your Present - Now Heal It

ENERGY is everything...
What is Rainbow Energy and what can it do for you?

Each of us is a rainbow of energy. Literally. It is part of our basic design, from top to bottom. It's all in the chakras. Defined and understood by Eastern physicians and philosophers thousands of years ago, each chakra has been linked to at least one specific organ and gland. When healthy, each glows (alas, invisible to the human eye with a color of the rainbow.

Comprehending the effects of injury to the chakras brings understanding of the very roots of some of our most common physical and emotional problems. Many books discuss various ways of healing, but few of them address the most basic causes of the dis-ease. Now you can learn about the energetic forces that influence and govern every aspect of our lives and understand energy in a whole new way. This will bring new dimensions to the chemistry or physics classes you had in school.

No one has had a perfect life. The books and classes offered through this website can help you understand how negative energies can damage the are around a given chakra and cause specific illnesses and/or psychological problems. Now you can learn how to begin the process of opening your chakras and releasing negatives that have been causing you problems for years. As you free yourself from these, your internal rainbow glows ever more brightly and you can experience real healing and true joy!
